SUSPENDED

Tierra, Mar and Aire (Earth, Sea and Air) arose from a concern about or interest in two concepts. First, an intention to democratise 3D printing on a large scale by integrating it as another industrial process in light manufacturing. Second, and most importantly, an interest in producing increasingly sustainable products and contributing to circularity. The project is something of a rallying cry encouraging us to consider our relationship with the planet in response to the current climate crisis. Nature does not generate waste: we must learn from it and move towards a more circular and sustainable product.

Tierra, Mar y Aire surge de la inquietud o el interés por dos conceptos, por un lado la intención de democratizar la impresión 3D a gran escala integrándose como un proceso industrial más para fabricar luminarias, y por otro lado, y el más importante, el interés por producir productos cada vez más sostenibles y contribuir a la circularidad. El proyecto tiene un carácter reivindicativo o de denuncia sobre la necesidad de plantearnos nuestra relación con el planeta, en respuesta a la actual crisis climática. La naturaleza no genera residuos, debemos aprender de ella y dirigirnos hacia una producción cada vez más circular y sostenible.
