# TESTS MANIF

## **1. We don't sell lamps: we create them with you**

We think every lamp should be unique: a true reflection of the taste and creativity of those who buy them and enjoy them in their everyday setting.

## **2. Our goal is to bring light wherever you want**

We come up with design systems that allow you to arrange your light, moving it where you most need it.

## **3. Assembled or divided**

Here you can find all the components you need to create your own lamp (don't worry, we have plenty of tips to help guide you through it!) or to customize an already assembled lamp with many different finishings (and in this case all you'll need to do is switch it on!)

## **4. Born digital but we prefer face-to-face**

We were born on the web and, contrary to what usually happens, we subsequently opened our stores across the world: we couldn't wait to meet our Clients in person and share a unique and special bond with them!

## **5. We are people of the world but we love our territory**

We have online and physical stores in more than 25 countries, but we also love our origins and their artisanal traditions. This is why we entrust expert italian artisans with the production of our fabrics, ceramics and wood components.

## **6. We love people that work with light**

This is why we created exclusive services for architects, electricians, interior designers and other professionals.

## **7. Sturdy and Sustainable**

To us sustainability means durability in time. That's why you will be able to exchange every part of your lamp by substituting them when necessary.

## **8. In case you couldn't tell, we're Italian**

Even if we picked out an english name we are still italian and proud, and we're hoping some elements of our origins shine through.

## **9. We believe in Quality and accessible design**

For a reasonable and accessible price we try to offer beauty and the possibility of having fun by creating dazzling ideas.

## **10. The content, not the container**

We prefer to focus on the content rather than on the container: a simple packaging to highlight our colourful products! Custom is our standard

# MAG-Y

The magnetic connector that changes your lighting design.

MAG-Y is the heart of Creative Cables’ new modular series. A metal element with a magnetic core, designed to be combined with extensions and cables, offering total freedom in customising any lighting system.

MAG-Y

MAG-Y

The minimalist design of the MAG-Y recalls the silhouette of a ‘Y’, but its real magic is in how it works. Thanks to its internal magnet, lamps can be placed on any metal surface or mounted on the wall using a special metal washer, offering complete freedom in lighting design.

The MAG-Y component, a little bit MAGnetic and a little bit MAGic allows you to design the table, floor or wall lamp that you desire. Make your dreams a reality is MAGIC!

## SPOSTALUCE

---

**No matter the lamp, the layout or the setting...  
the right answer is Spostaluce!**

Say goodbye to dark corners with the versatile Spostaluce.

Choosing the placement for ceiling and wall lamps can be a daunting task, and you may feel constrained by your existing sockets or light sources. That's where Spostaluce comes in, allowing you to effortlessly transform the lighting in your home. It's not only easy but also enjoyable, thanks to a wide selection of elegant and fun-coloured textile cables.

All you need to do is connect the Spostaluce lamp plug to the nearest electrical socket and attach the lamp to your room's wall or ceiling. It couldn't be simpler!

### **EASY INSTALLATION**

Save yourself the trouble of tearing down walls and hiring electricians.

### **FRESH LIGHT**

A creative solution for introducing new lighting sources throughout your home.

### **100% CUSTOMIZABLE**

Explore countless colour and shape combinations.

**SPOTALUCE**

**Combine them and illuminate your imagination with endless possibilities**

The distinctive feature of the Spotaluce system is its extreme versatility. It not only allows you to start from a basic power socket or a single light point to create lighting installations of any shape and size, but you can also combine them to achieve even more unique and customized compositions.

# PORCELAIN SYSTEM

---

Smooth, dazzling, refined.

Porcelain is the undisputed queen in the field of interior design and decor with its material's unsullied elegance and technical qualities.

So it only felt natural to design a collection of stunning, high-quality porcelain components to enhance your electrical installations while avoiding invasive adjustments to your walls.

Designed for maximum versatility, these products are compatible with both large-section cables and the Spotaluce system, allowing for seamless integration into any lighting setup.

**For indoor use only**

# CREATIVE TUBES

Create your own personalized, visible wiring installation with **Tubes**.

Tubes are the Creative Cables system that combines the beauty of the fabric covering with the practicality of a true surface wall system.

The Tubes system eliminates the need for ugly plastic electrical conduits or rigid metal pipework.

## Flexible

Creative-Tube combines the fabric-covered sheath with two metal filaments, allowing the conduit to maintain its shape when bent. It adapts to suit your needs.

## Tailor-made

Create a beautiful and functional bespoke visible system that takes into account your daily needs and the style of your rooms.

## Creative and safe

You have the freedom to exhibit your electrical system. Create a wall design that is a functional light source without sacrificing safety; the system adheres to the highest standards.

Compatible with

MADE IN ITALY

CREATIVE-TUBES

Creative-Tube is much more than just a fabric-covered conduit. Thanks to the metal filaments that run throughout it's entire length, Creative-Tube can assume and maintain any shape you give it.

Creative-Tube is sold per meter, multiple orders will be delivered in one piece up to a maximum of 30 meters.

**Specifications:**

Classification No: **3321**

Crushing Resistance: **>750N on 5cm at 20°C**

Decorate and light up your walls with the **Filé** Components.

Create, decorate and light up impressive lighting installations in **just a few steps**. **Filé** lets you forget about the difficulty and effort of wiring up a lamp holder!

Create **designs on the walls and ceilings** using electrical cables available in more than 20 colours and **Made in Italy** wooden components. Create effective lighting, tailored to your lighting and design requirements.

Build your customized and 100% Creative lighting solution!

Patented Solution  
**MADE IN ITALY**

FILÉ LAMP HOLDERS

Provide your pendant lighting the exact illumination you desire by choosing from a variety of lamps and lamp holders to connect to it. Opt for classic wooden lamp holders, either natural or painted, suitable for exposed bulbs or lampshades. Alternatively, you can pair your creation with the Tub-E14 spot lamp.

**Filé system string light lamp holder**

Material: **Wood** CE UK CB  
Rated Voltage/Current: **250V/4A**  
Compatible cables: **String lights 2x1,5 mm²**  
Fitting: **E27** MADE IN ITALY

**UV  
RESISTANT**

**What does UV resistant cable mean?**

It means the fabric used to line these cables was designed to resist UV rays, which make up around 10% of sunlight. The colour of UV resistant cables remains vibrant and doesn't tend to fade over time, even when they are consistently exposed to sunlight.

# LUMET

Create a unique atmosphere with the **LUMET** components.

Light up your outdoor spaces for a special evening with the colourful

Creative Cables string light systems.

The Lumet components allows you to create **ready-to-use outdoor lighting** that is easy to install and dismantle. It is perfect for evenings spent outdoors with your friends, at home or on holiday!

**The IP44 protection** classification means that you can install the Lumet string lights in your outdoor spaces, even during the most humid evenings, and quickly take them down before each downpour.

Patented Solution  
MADE IN ITALY

STRING LIGHT LAMP HOLDER

This thermoplastic E27 lamp holder is specifically designed to autonomously compose your Lumet string lights. It can be placed on the string lighting cable at the exact points where you want to illuminate.

STRING LIGHT LAMP HOLDER FOR LAMPSHADE

This E27 threaded thermoplastic lamp holder is designed to enable you to easily and independently assemble your string lights, giving you the possibility to hang a lampshade and make your spaces even more special.

## EIVA COMPONENTS

---

EIVA: the first do-it-yourself IP65 Outdoor lighting system.  
Water has never been a natural environment for light.

### **Until today.**

Create your own water, rain and storm resistant lamp with  
guaranteed Creative Cables quality.

Patented Solution  
DESIGN IN ITALY

 **EIVA**  
OUTDOOR IP65

EIVA SYSTEM

The heart of EIVA is the world's first wired E27 IP65 lamp holder: thanks to the insulating gel inside and a watertight membrane on the bulb, this lamp holder withstands rain and storms in complete safety.

DESIGNED FOR OUTDOOR,  
PERFECT FOR INDOOR.

The EIVA Outdoor IP65 System will allow you to illuminate outdoor spaces like gardens, patios and terraces but also as lighting solution for the bathroom, without having to worry about water splashes.

EIVA-1

The first outdoor E27 IP65 wirable lamp holder

Made of thermoplastic, this water resistant lamp holder is suitable for both light bulbs and lampshades with E27 connection and can be purchased in its “naked” version or in a kit, complete with a soft touch silicone cover.

Thanks to a special insulating gel contained inside and a hermetically sealing membrane that rests on the bulb, this lamp holder can safely endure rain and storms.

Compatible with:  
Cables only 2x1mm² H05RN-F  
Bulbs A60, ST64, G95 and G125 shapes that guarantee rating of IP65 protection

EIVA wirable lamp holder

EIVA-3 T-JOINT

Patented solution

EIVA-3 is the T-joint that allows you to design multiple outdoor configurations. By using the existing connections of your installation, you can create pendant lamps with a naked bulb or lampshade, or create a light grid by crossing them. Thanks to the caps included in the kit, EIVA-3 can also be used as a terminal. Using the ring on the top you you can attach the joint to any space.

Compatible with:  
**Cables** only 2x1mm² H05RN-F

**EIVA-3**

Cover Material: **Thermoplastic**

Rated Voltage/Current: **110 - 240V/4A**

## THE ORIGINAL CREATIVE CABLES

---

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative Cables.

What makes Creative Cables products so special?

Made in Italy

From the industrial process behind the PVC cables to the fine work of tailoring that goes into the textile linings, every single Creative Cables component is Made in Italy. Including the design, obviously!

Quality

First and foremost! Our cable specifications, fully compliant with the strict HAR and UL regulations, are constantly monitored and consistently kept up to date. The fabric used for the finish comes in one-of-a-kind colour hues from the best Italian suppliers.

Flexibility

Our PVC cable has been produced based on a special formula that maximises flexibility and prevents bulges. The complete cable is Creative Cables guaranteed from the surface to the core of the product.

Our selection

Which boasts the vastest colour catalogue in the world. Different fabrics, from polyester to linen, cotton to jute, combined with various textures plus exclusive and patented designs. On top of all of this we offer stunning solutions like the Marlene line, soft and light like a feather.

A close-up photograph of a person's hand holding a large spool of vibrant red thread. The spool is cylindrical with white plastic end caps. The hand is positioned on the right side of the frame, with the thumb and index finger gripping the spool. In the background, a sewing machine is partially visible, with a needle and foot stitching a piece of fabric. The background is blurred, showing a workshop or factory setting with industrial equipment and warm lighting.

## **Pioneer of personalized, configurable and bespoke lighting**

At Creative Cables, our passion for lighting extends beyond the mere illumination of spaces. We celebrate the uniqueness of every individual and believe that true brilliance shines when personal identity finds its voice.

Our commitment to fostering freedom of expression is reflected in our products, which empower customers to illuminate spaces in ways that mirror their distinct personalities.

LIGHTING CABLES

More than 300 colours, patterns, textures and surface effects for different uses, tastes or designs. Choose among the offered styles (round, twisted, nautical, large section or flat) to select what best suits your lighting project: they are incredibly flexible, because we use high quality PVC to avoid bulges or wrinkles. All of our lighting cables are IMQ-HAR certified, the highest quality standard in Europe.

Round glossy-effect cables

Glossy cables have a bright solid finish, which is elegant yet informal. Shiny as silk, they can bring colour wherever needed.

LARGE SECTION CABLES

Our large section (3x1,50mm²) cables will help you when you require some extra power: multi sockets, power leads, wall installations, extension cables. Choose among the offered styles (round, twisted) for what best serves your purpose: they are incredibly flexible, because we use high quality PVC to avoid bulges or wrinkles. All of our large section cables are IMQ-HAR certified, the highest quality standard in Europe. Every single product is designed and Made in Italy.

Large round glossy-effect cables

Glossy-effect cables feature a sleek solid finish that is both elegant and casual. They can add colour wherever it’s desired.

**Specifications:**

H05VV-F 300/500VAC 3x1,50mm²  
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.

ROPE CABLES

Covered with soft flock and raw jute in order to increase their diameters, cables can become a nautical rope with various thicknesses, colours and finishes. Inspired by the maritime style, they can create a totally unexpected suspension lamp. Every single product is designed and Made in Italy.

Rope cables

The electrical cable becomes an electrical cord.

The double covered electrical cables are covered with soft flocked and raw jute, resulting in a very large diameter.

**Specifications:**

300/300VAC 3x0,75mm<sup>2</sup>  
Visible Spiral Flexible Cable which is double insulated, under the fabric braid.

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 20 meters in length.

Jute rope cables

This cable is featured by a double coating: the round electric cable covered in jute is enriched by the external coating of the braided jute cord thus reaching a 24mm diameter. In this way you can treat the cord like any other cable.

**Specifications:**

H03VV-F 300/300VAC 2x0,75mm<sup>2</sup>  
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.

Cover cable diameter: 24mm

## ULTRA SOFT SILICONE ELECTRIC CABLE

The electric cable with fabric lining has never been so flexible: these cables are even softer compared to traditional ones made from PVC, while still guaranteeing the same efficiency and safety. This premium product was designed to ensure flawless falls for any suspension lamp, preventing ugly creases or wrinkles.

### Specifications:

H05SS-F 300/500V 2x0,75mm<sup>2</sup>  
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.  
Standard reference: EN 50525-2-83 RoHS 2011/65/UE REACH 1907/2006

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.  
NO 3 core AWG18 cable is also available

EXTRA LOW VOLTAGE CABLES

The two-pin Extra Low Voltage electrical cable in white extra-flexible silicone is covered in glossy effect fabric. The cable is ideal for movable luminaires (table / floor lamps) in class III and for fixed installations (wall, ceiling and pendant lamps) in class II with a rated current of not more than 2A.

The size and structure of the cable make it suitable for LED applications with a voltage of less than 48V.

The cable is 3.5 mm in diameter (approximately 4 mm covered) and has 2 copper conductors covered in black and red silicone rubber with a cross-section of 0.35 mm².

Caution: do not use for mains voltage and halogen bulbs.

**Specifications:**

Flexible bipolar cable insulated with white silicone  
2 copper conductors coated with black and red rubber section 0.35mm  
Rated voltage 300/500 V  
Test voltage 2kV  
IEC EN 60228 Class 5  
IEC EN 60754-1/2  
The size and structure of the cable make it suitable for LED applications with a voltage of less than 48V.

**What does UV resistant cable mean?**

It means the fabric used to line these cables was designed to resist UV rays, which make up around 10% of sunlight. The colour of UV resistant cables remains vibrant and doesn't tend to fade over time, even when they are consistently exposed to sunlight.

FLAT CABLES

Flat cables are Creative Cables solution allowing you to both create wonderful string-light for your garden parties and beautiful indoor designs through the Filé and Lumet Systems. Choose from a selection of colours and add the necessary accessories for your compositions.

**Specifications:**

H05RNH2-F 300/500 VAC Rectangular flat shaped 2x1,5mm² cable  
No flame propagation: in accordance with EN 60332-1-2/IEC 60332-1  
Referring Regulations: EN 50525-2-82 and IEC 60245

THERMOPLASTIC IP44 E27 LAMP HOLDER

The patented Creative Cables E27 lamp holder simplifies home lighting. With its sleek design, compact size, and versatile shape, you can create impressive lighting arrangements without the need for a ceiling rose. This E27 lamp holder is easy to mount on walls or ceilings. It's also IP44 rated, suitable for outdoor use under a canopy, on a patio, or in a bathroom near a mirror. Available in two versions: for naked light bulbs and lamp holders.

**Wall or ceiling lamp holder for lampshade**

Cover Material: **Thermoplastic**      

Rated Voltage/Current: **220-240V**      

Cables: **0,75-1,5mm²**

BAKELITE LAMP HOLDERS

A bakelite lamp holder is perfect for assembling a classic wall, table, or ceiling lamp. Bakelite, named after its inventor, is a thermosetting resin that evokes memories of telephones, radios, and other objects from the 1950s and 1960s. It is a lightweight and durable material, and when painted, it acquires a glossy finish.

## SPOTLIGHTS

---

Spotlight lamps are the perfect focal point to illuminate your spaces with elegance and precision. Designed to provide direct and focused light, these lamps add style and functionality to any environment.

Thanks to their flexibility and adjustability, spotlights allow you to easily control the direction of the light beam, creating cozy atmospheres or targeted light points.

Choose from different designs and materials to customize your space with quality lighting and distinctive style.

TUB-E14

The Tub-E14 is the ideal lamp shade for anyone who enjoys using a spotlight. It provides a directed beam of light that creates an ambiance and is designed to fit an E14 double ring lamp holder. Tub-E14 is a multi-purpose lighting solution that works well as a shade for a single or multiple pendant lamps or wall lights.

## CEILING ROSES

---

A ceiling rose serves as an elegant and functional element that not only complements your lighting fixture but also conceals wiring and adds a touch of sophistication to your ceiling.

Our collection includes a wide range of shapes, sizes, and materials, ensuring a seamless match with your home's unique style.

Follow this logo inside the catalog and discover all the components you can match

**SPØSTALUCE**

METAL CEILING ROSES

Among our best selling products, metal ceiling roses are available in 6 finishes. We also created the 2-3-4-5-6-7 hole versions to create multiple pendants: the side-holes roses can help design a totally customized wall or ceiling light fitting array. Cable clamps can be made from plastic or metal and have different lengths, for an even more personalised solutions.

WOODEN CEILING ROSES

We produce our wooden components in a small workshop in the province of Turin, our hometown. Here, the distinctive Italian craft-smanship, care and creativity of our designers transforms every wood log into beautiful components.

We first designed them for our rope cables and offered in three basic colours, but they are so extremely versatile that we've created more options to give you more possibilities to style your interior as you prefer: natural wood can be painted or polished as desired. Each ceiling rose has a matching wooden lamp holder.

# ROSE-ONE

The first versatile and easily customizable ceiling rose. Create unique multi-pendant lamps with ROSE-ONE ceiling roses.

Rose-One System is a Creative Cables exclusive solution allowing everyone to create wonderful multi-pendant lamps personalized on each one's needs.

**Invest with limited stock**

Keep your stock limited without reducing the number of products you can sell. You can easily create your product combining the Rose-One bases with covers either already drilled or to be drilled.

**Flexible and customizable solution**

With Rose-One you will have the possibility to customize the product independently, defining the number and position of the pendant holes selected by your customer.

**Wide choice of shapes, colours and finishes**

You can choose from many combinations, which differ in shape, size, colour or finish. If the available options are not enough you can request a custom finish!

Patented Solution  
MADE IN ITALY

Compatible with  
**SPØSTALUCE**

### Round, square or rectangular

With the Rose-One system, you can choose from a variety of shapes and sizes to find the rose that's right for you.

### Colours and finishes: Matt, Textured or Metallic?

Your Rose-One can be understated and elegant or informal and playful; take a look at our colourful decorations!

### Numbers of pendants: how many?

Our catalogue has a range of Rose-One options from 1 up to 15 holes to choose from, to make an installation with many pendants! In addition, custom roses can be made with the number and geometry of holes that your customer prefers.

### Base holes: We have 4 options

The Rose-One by Creative Cables is a Made in Italy patented solution that is characterized by a base with four entry/exit holes. How can you use them?

- Create up to 4 side drops in addition to those present in the cover of the Rose-One.
- Connect multiple Rose-Ones together to illuminate areas of the room away from possible points of power sources.
- If there is no ceiling light you can use the side holes to connect the Rose-One to a nearby electrical outlet.

If the 4 holes of the base are not used, they can be closed with the caps provided in the package.

Multiple arrangements

The Rose-One rectangular or square, thanks to the many finishes available allows you to create multiple impressive suspensions in relation with the style of the rooms you are furnishing.  
The side holes allow you to easily connect several Rose-One to each other, starting from a single ceiling light point. They can be easily combined with each other to allow you to create different arrangements and geometric designs adaptable to your needs: lighting a living room, a table or a long bar counter.

Rose-One: the customizable ceiling rose

With our template you can drill any round or square Rose-One cover in your shop with a common drill.  
The holes are numbered to make drilling easier: if you want, you can use our legend to reproduce the most classic drilling patterns (included in every pack).  
Unlike a classic range of rosettes, it will not be necessary to stock an infinite number of models, different in the number of holes and finishes: depending on customers requirements, you can create the desired product by combining the universal base to the dibond, already drilled or to be drilled with the appropriate template jig.

Rose-One kits

For all our customers who like to create and design, being able to choose your ceiling rose for single or multi pendant lights just got a whole lot easier. Rose-One system comes in a wide variety of colours and design options. Look out for more options to come.

What you need to compose your Rose-One ceiling rose

You'll be able to build your Rose-One ceiling rose in 3 simple steps. One - choose pre-drilled or undrilled cover's shape, size and Decorazione. Two - choose one of the 3 metal ceiling roses: Rotondo small for smaller covers, Rotondo big for the bigger ones and rectangular for rectangular covers. All available in white or black. Three - complete your ceiling rose with transparent hidden cable clamps. Easy not? And you can also optimize your warehouse's stock! How? Depending on your customers' requirements, you can easily create your product combining the Rose-One bases with covers either already drilled or to be drilled. A lot of choices for your Clients with a minimum stock, what do you need more?

Cover

Choose the shape, the size and the decoration. You can either buy it: predrilled or undrilled.

PREDRILLED

UNDRILLED

Base metal ceiling rose

Depending on the cover you chose, you will need to choose the correct one from the 3 available metal ceiling roses: round small for smaller covers, round big for bigger covers or rectangular (either white or black) for rectangular covers.

Cable clamps

Add the transparent hidden cable clamps to your cart in order to complete your ceiling rose.

Warning!

If you buy undrilled covers you will also need to buy a template inorder to ensure that you drill the holes correctly.

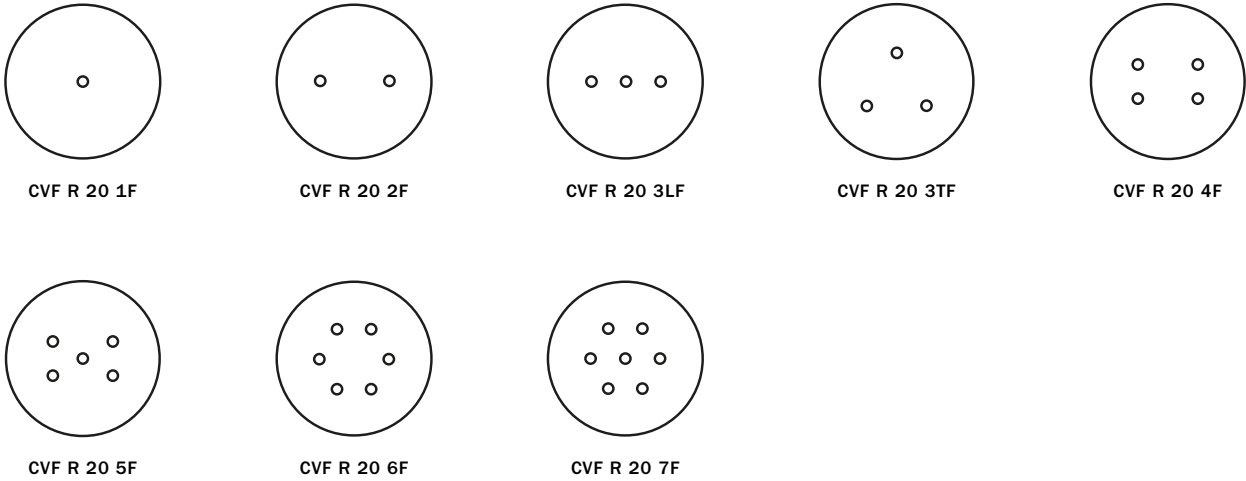

1. Pre-Drilled Covers

The Rose-One pre-drilled come in three different shapes: square, round and rectangular. And the squared and round versions are available in two different dimensions, 200 and 400mm. Covers are pre-drilled with 1 to 15 holes depending on their dimension following different kind of punching schemes. Covers come in different designs and colours and are made in aluminum or dibond. Complete the Rose-One ceiling rose with specific Material: a metal ceiling rose and cable clamps.

UFO UNCONVENTIONAL FLYING OBJECT

We selected 7 famous & promising emerging artists, we chose two of their most representative artworks and we lit them up: This is how the UFO collection - Unconventional Flying Objects was born. 7 double-faced wooden disks, processed and printed in Italy, ready to become a wall or a suspension lamp. Well, actually two: both sides of the disk are illustrated with different designs!

Men and women, cactus and pineapples, mandala and azulejos, ice cream and cupcakes, and not to forget fish, dogs and flamingoes: A surprising varuety of subjects and colours that create playful, romantic or surreal atmospheres.

BELL - CERAMIC SHADES

Create striking pendant lamps with Bell lampshades, perfect for tables or bar counters where focused downward lighting is needed. Entirely made and decorated in Italy, these shades combine function and style. Installation is simple: knot any fabric-covered cable to the loop, insert an E27 lamp holder, and screw in your chosen designer bulb. Each finish is designed to help you create the perfect atmosphere for any space.

CEMENT SHADES

Cement lampshades are not just a simple cover for the lamp holder like many others, but rather genuine decorative elements capable of imparting a distinct character to the environment in which they are placed. The inherent qualities of the material and the manufacturing process result in each lampshade having a slightly irregular surface, making it unique in its own right.

CLESSIDRA FABRIC LAMPSHADES

The Clessidra fabric lampshade is an elegant and sophisticated furnishing accessory, characterized by a distinctive shape, created by combining three different conical sections, the central one narrower and the upper and lower ones wider, which integrate to compose a single lampshade. Made in Italy with fine materials and available in various vibrant colour combinations, the Clessidra lampshade perfectly suits beautiful pendant lamps.

RAFFIA SHADES

These lampshades play with light, creating a warm and welcoming ambiance reminiscent of tropical paradises. A symbol of natural elegance and commitment to sustainability, they are crafted with raffia sourced from the largest leaves of the Raphia palm—an eco-friendly, 100% biodegradable, and compostable material. The result is a design that blends organic beauty with refined craftsmanship, bringing a touch of nature into any space.

FIBRE LAMPSHADES

Born from a collaboration between Creative Cables and the French brand La Case de Cousin Paul, the Sphere Light is a handcrafted lampshade made using a refined weaving technique. This process gives it a light, delicate texture while maintaining structural integrity. Each piece is unique, with subtle variations in the weave that add charm and character to any room. Compatible with E27 lamp holders, it comes in a compact package that includes the lampshade, a mounting kit, and an instruction manual for easy assembly.

CABLÒ

Here at Creative Cables we always strive for the best, both for our customers and our planet. Cablò is a perfect representation of that: a support made from recycled plastic that adapts to any suspension and lamp holder, turning a simple accessory into a floating piece of art.

Cablò  
Design by Fabrizio Alessio

**1.**  
Choose your Cablò and the cables you like.

**2.**  
Open and insert the cables in the slots.

**3.**  
When satisfied with your design, close the Cablò.

**4.**  
Mount it on any suspension with the built-in clamp.

Suitable for E26 socket

CUSTOMIZE IT

Any original Creative Cables 2x and 3x fabric cable that is at least 50cm long can become a Cablò component. Pick out your kit, available in the black or multicolour version, and use it to create your fully customizable lamp. What's more, by using different combinations you will achieve many different shapes and weaves.

## ACCESSORIES

---

Wall fixtures, fairleads, hooks, decentralizers... Small accessories for big results.

We offer a variety of components to transform your lamp, making it increasingly unique and tailored to your space and needs.

PINOCCHIO

Pinocchio is Creative Cables adjustable wall mount for pendant lamp: it is made in Italy out of 100% beachtree wood and it can be polished or painted as desired.

The cable doesn't go through any holes, it is wrapped around ridged wooden supports at each end: we strongly recommend you to use it with our lamps Snake, Snake for lampshades and SnakeBis. Pinocchio makes it possible to hang a lamp onto a wall, even with a lampshade with a 50cm maximum diameter and a 3,365 kg maximum weight.

**Pinocchio**

Material: **Beechwood** CE UK

Max. supportable weight for 3x0,75: **3,4 kg**

Max. supportable weight for 2x0,75: **2,3 kg**

Max. Extension: **27,2 cm** MADE IN ITALY

Finish	Code
● White	SSTLN02
● Black	SSTLN03
● Neutral	SSTLN01

Pinocchio can also be adjusted at three different heights.

PINOCCHIO XL

Pinocchio XL is not a simple wall bracket! It is Creative Cables' solution to hang your lamp where you need it, allowing you to adjust the distance and the position of the light source from the wall. Thanks to the groove in the last rod, the cable remains locked in a safe position. Made (in Italy) from untreated beechwood, it can be impregnated or painted with the colour you want. And if you wish to add a lampshade, you can complete your installation with the ceiling brackets included in the kit.

**Pinocchio XL**

Material: **Beechwood**

ZIGH-ZAGH

Zigh-Zagh is the ceiling support that allows you to create original pendant lamps, adapting both the shape and the length to every situation. Made in Italy, it can also be impregnated or painted with whichever colour you like. Included in the kit is a thin transparent thread and the ceiling hooks needed to hang up your creation.

ROLÈ

The Rolè wooden cable tie is an ideal wall fixture for creating beautiful wall lighting solutions in your indoors spaces. It can be used to decentralise the fall of pendant lamp, or thanks to the use of many cable ties in a installations... and why not, you can use Rolè as a coat rack! Rolè is made of 100% Italian-made wood and is available in four finishes: beechwood, wenge-effect, black and white.

ARCHET(TO)

Archet(TO) is Creative Cables patented and Made in Italy solution to create a suspended lamp that can be hung onto a wall, even with a lampshade with a 70 cm maximum diameter and a 3,365 kg maximum weight it is bearing. It has a light structure in trasparent polycarbonate and can be used with our lamps Snake and SnakeBIs.

LAMP BASE IN ALDER WOOD

A lamp base of minimal elegance and simple shapes. The conical base, handcrafted in Italy with alder wood, is worked by master craftsmen to enhance the natural beauty of the grain, giving the product great appeal. Furthermore, the wood is untreated on the surface: it can therefore be used as it is, or painted as desired. Enriched by the iconic textile cable signed Creative Cables, also made in Italy, this lamp discreetly fits into any setting.

**Lamp base in alder wood**

Material: **Alder wood**

Weight: **0.17 kg**

Finish	Code

TACHÉ, LIGHT BULB SUPPORT

Taché, in Piedmontese means “to attach” or “to fix”: our Taché is a support for light bulbs that allows you to transform a Globe 125 into an original table lamp. Designer Fabrizio Alessio has imagined to adapt William Middlebrook’s idea (the paper clip) to the world of lighting, by drawing from its elegance and simplicity: just as the paper clip staples sheets of paper, Taché’s super-light structure can staple the globe of any G125 bulb, leaving it suspended and in view. The Taché consists of two mirrored arms with an aluminium wire frame covered with a braid made from the fabric of our cables and two elegant Made in Italy wooden feet. As well as a decorative function, the covering sleeve protects the bulb’s surface.

**Taché - light bulb support**

Material arm: **Coated aluminium wire**       
Material feet: **Beechwood**

WOODEN FEET KIT - TABLE LAMP SUPPORT

These beechwood feet made in Italy have a supporting purpose, allowing you to transform a lampshade into a table lamp base. They are equipped with double-sided adhesive tape to secure the lampshade and felt pads on the underside to ensure protection and adherence to the supporting surface. The wooden feet are available in different finishes to allow for a pleasant harmonious effect of your installation.

# CREATIVE FLEX

---

When flexibility takes shape

Creative Flex is the lighting system for creating single and multiple pendant lamps in all the shapes and finishes your imagination can suggest. It is bendable and adjustable with different torsions, available in 3 lengths to give shape to any lighting requirement and, obviously, customizable with 20 coatings and 5 finishes for the terminal. The ultimate in flexibility, don't you think?

Patented Solution  
MADE IN ITALY

CREATIVE FLEX

When flexibility takes shape.

Creative Flex is our completely flexible illumination system because you can model, bend, twist and regulate as you wish with many a torsion. Flex System is ideal to create single and multi-fall pendant, wall lamps or table lamps inspired by the most imaginative ideas, yours!  
Be creative and design your own lighting system.

Fabric covering and terminals

We offer a selection of 20 colours for your fabric coverings, that seamlessly blend into any environment. Our terminals offer a seamless blend with your chosen fabric covering. Find the perfect match among our five finishes to achieve a harmonious fusion of style and functionality.

#### Tailor your Flex 60 cm

Whether used individually or in multiple combinations, the 60 cm Flex is the solution for those seeking a wall or ceiling lamp to customize repeatedly with a simple twist of the hands.

#### Flex adapts to every need

##### When flexibility takes shape.

Give your Creative Flex the shape you desire by choosing from one of the three available lengths: 30 cm, 60 cm, and 90 cm. Whatever your lighting requirements may be, we're confident you can meet them.

Compose your own design

The Creative Flex kit includes a flex, the adjustable flexible tube, and a pair of metal terminals. We provide you with hundreds of options to create your Creative Flex Kit, but don't worry, your warehouse will also remain flexible: based on the requests of your customers, you can also purchase the different options individually.

Elevate your ceiling with this added idea: Flex 90 cm

If you're in search of a customizable ceiling lamp, Flex 90 cm is the perfect solution for you. Its flexible extensions, moldable with your own hands, can be bent and twisted to create the lamp you've been looking for. To maintain the shape of your lamp, bend and flex Flex along its entire length.

## CAGE

---

Looking for a modular chandelier in true Creative Cables style? Cage is the answer to your every need thanks to its clean shape that encloses the cables to create dazzling and unique suspension lamps. We like to think of them as floating sculptures.

They are available round or squared, in 3 different finishes: black or white in recycled plastic and transparent in polycarbonate.

### Change shape

If you get tired of your current display, switch up your lamp's appearance each and every time you want to by simply adding new Cages to your current one or by adjusting its placement. For unique and captivating shapes.

## ELECTRICAL AND ELECTRIC COMPONENTS

---

Every electrical accessory you can think of to create your own personal design: plugs, sockets, switches, dimmers, and much more.

All certified to the strictest Italian and European safety standards.

SWITCHES DESIGNED BY ACHILLE CASTIGLIONI

The legendary 450, was born more than 50 years ago from the pencil of one of the protagonists of Italian design, winner of nine Golden Compasses.

The sound of the operating 'click' has entered the collective imagination of every person since, as this small object has been produced more than 25 million times. But 450 isn't the only switch designed by Achille and Pier Giacomo Castiglioni: there are two "big brothers" designed for floor and table lamps: the 661 and the 662.

Special thanks to the Achille Castiglioni Foundation for the support

Unipolar Slider Switch

CABLESS11 BASE LAMP

Cabless11 is a portable alder wood lamp with a threaded double ferrule lamp holder. Minimal and versatile, it features a cone-shaped wooden base and can be paired with a lampshade. Equipped with a rechargeable Li-ion 18650 battery, it offers complete freedom of placement—no power outlet needed.

**Portable & rechargeable Cabless11 base lamp**

Material: **Wood**

Fitting: **E27 max 4W**

Nominal **voltage: 5V**

Li-ion 18650 battery included

Finish	Code
Black	CABLESS11-VN
White	CABLESS11-VB
Neutral	CABLESS11-NATNAT

CABLESS12 BASE LAMP

Cabless12 is a portable alder wood lamp with a threaded double ferrule lamp holder. Versatile and fully customizable, it features a hemispherical wooden base and a sleek metallic extension for a refined, modern look. Pair it with your favorite lampshade and place it anywhere in your home—no socket needed—thanks to its rechargeable Li-ion 18650 battery.

**Portable & rechargeable Cabless12 base lamp**

Material: **Wood**

Fitting: **E27 max 4W**

Nominal **voltage: 5V**

Li-ion 18650 battery included

Finish	Code

His design, set apart by its sculpted shape yet inspired by soft and fleeting water drops, won the ELLE Decoration British Design Award in 2014.

## B2B SERVICES

---

### Choice

We offer hundreds of IMQ-HAR or UL certified cables made in Italy, complemented by a variety of lighting accessories and high-quality light bulbs that can generate thousands of combinations. Our assortment is regularly reviewed to set or match current lighting trends.

### Assembly

We can assemble and certify almost any of our products together to create your desired ready-to-use lamps that only need to be positioned and switched on. Simply nominate the components you need and contact us to receive the best quotes available complete with volume breaks for larger quantities. The more you buy, the more you save.

### Customization

Anything can be possible at Creative Cables. We like to explore your ideas and encourage your creativity: if what you want is feasible, we can make it happen. We are the producer, so ask us if we can create what you need.

We are available to provide you with cables in different colours than those offered, to cover special cables, or to send you pre-processed cables (cut, stripped, etc.). We can also customize lamp bases and lampshades for you using processes like engraving or laser etching, with a minimum order requirement. If you have special requests, just ask us, and we'll see how we can assist you.

### Service

Our B2B website is active 24/7: In addition, each B2B customer receives dedicated support from a qualified account manager who can assist you throughout the process before, during and after the sale.

### Logistics

B2B orders of any size can be prepared within 5 working days, 80% of our orders are dispatched within 48 hours. We have mastered our efficiency to allow you to receive what you need when you need it. For special customized products or assemblies, we can advise approximate lead times to ensure you have all the information you need to plan accordingly.

### Point of sale materials

We have boxed products and sample displays cases. Corners Display Panels are the solution to display a wide selection of products in your store or showroom to maximize sales by properly expressing the idea of possibilities of light installations that can be obtained with Creatives Cables components.

# CONFIGURATOR CORNER

## The inspiration

Our architects will design an installation in your shop, with a few selected products to intrigue, help and inspire your customers.

## Play

A dedicated version of the Creative Cables Configurator for customers to use on wall-mounted touch screens, computers, tablets or smartphones, accompanied by a salesperson or on their own. Customers create their custom-made lamp, while playing.

## Touch

A material library (optional) organised in drawers for people to touch, check colour combinations and confirm choices.

The Configurator Corner makes selling custom products a simple and automated process: no IT integration, no catalogues to learn or consult, no codes and prices to remember. Hundreds of thousands of possible configurations with no need to stock the product. The selection of configurable models can be customised to match the offer of the point of sale and the customer retail price level is also fully configurable.

## WHO IS IT DEDICATED TO?

Configurator Corner has been thought for a selected number of Point of sale.

- Lighting shops
- Furniture shops
- Concept Stores
- Home accessory shops
- Garden centres and outdoor furniture

## HOW MUCH SPACE IS REQUIRED?

- From 0,5 to 10 square metres
- At least one free wall

## HOW MUCH SPACE IS REQUIRED?

Little, very little and in any case, it varies according to the individual project depending on the amount of material to be displayed, which device will be used for the configurator and the use of the material library.

- The installation and use of the configurator is completely free of charge.
- The design of the space is handled by Creative Cables.

## WHAT DO WE OFFER?

- Free of charge and customised design of the display according to the needs and type of space.
- Touch screen configurator: the customer composes the lamp of their desire and receive it in the shop, with no stock commitment for the point of sale.
- Material library: a set of customised drawer units (optional) for the customer to “touch” the materials used in the configurator.
- An automatic order system to make the procurement process quick and easy.
- Extra discounts on the displayed products.
- Location on [www.creative-cables.com](http://www.creative-cables.com) as an official Corner where you can find Creative Cables products.

## DISPLAY CASES

The white porcelain diverter with knob is a vintage component used to control a single light from multiple locations. Made from high quality materials and perfected with an elegant finish, this diverter is ideal for those looking to achieve a vintage atmosphere in their home or office space.

### EIVA Mini Creative Box - Counter display unit

Code: **MCB-EIVA2**  
Dimensions: **l 410mm, h 505mm, w 305mm**

A tool that will make it easier for the customer to choose and for the retailer to sell. Despite its small size, the display unit contains all the components of EIVA outdoor lighting system: the two Pastel or Elegant lines, the 8 silicone finishes available, the selection of Creative Cables cables for outdoor use and the innovative and patented lamp holder. The display unit is shipped pre-assembled, thereby avoiding the hassle of having to follow any assembly instructions. Just open the box to display it and start selling! Contact your local B2B sales team to find out how to get an EIVA Mini Creative Box with your next order.

### Reel Display Kit

Code: **ESP8REEL**  
Dimensions: **l 62cm, h 23cm, w 11cm**

The Reel Display Kit is a simple and elegant solution for displaying Creative Cables cables on a wall. Each kit consists of 2 lateral leg loops with logo and 2 bars, to easily exhibit up to 8 reels of cable. The cable reels are not included, but are supplied by default with the purchase of 50 meters of lighting cable and 25 meters of cable for string lighting cables (or relative multiples).

### Wooden display box for cables and cords

Code: **SCAESPCAVI24**  
Dimensions: **l 52cm, h 9cm, w 32cm**

The display box is a functional presentation tool for Creative Cables' wide range of cables and cords. Made of wood, it illustrates the various cable types with their different specifications and the complete collection of colours and fabrics, each labelled with its own code for easy identification. This arrangement allows customers to see and touch the quality and variety of products on offer: a functional accessory both for sales and for display in the shop.
