

SUPPLEMENT CATALOGUE

❖ SPRING 25 ❖

Welcome to the Spring 2025 Supplement.

Elstead Lighting are delighted to preview another 162 products for this Spring 2025 Supplement. There are lots of new on trend products from Hinkley, Quoizel, Kichler and new partner Alora Mood.

Alora Mood fixtures are designed with cutting-edge trends in mind and are built to last. Their designs take the hottest trends and pair them with timeless design structure. These elements combined make truly impactful pieces that are classic enough to stand the test of time.

You will see that the Spring 2024 introductions are also shown in this catalogue. Those pages

that show the New Spring 2025 symbol, are now in production and a schedule of the stock arriving is published in the price list.

This combined supplement is in addition to the current 2024 collection. This Supplement will be integrated with the new Elstead Lighting 2025 Master Collection scheduled for late Autumn 2025.

Contents

	Interior	Page 04 - 125
	Wall & Picture Lights	Page 98 -107
	Tiffany	Page 116 - 125
	Bathroom	Page 126 - 137
	Exterior	Page 138 - 173
	A - Z Index	Page 174
	Contact us	Page 175

INTERIOR

We are proud to introduce some new contemporary chandeliers and pendants in this latest collection. Alora Mood brings trendy and fun style into the mix but has enough elegance to make them timeless too.

The use of mixed materials including natural rope and rattan help to bring affordable on trend products into the Elstead Collection. Brass is still the strongest colour of metal finish but mixed with black or white provides the products with a classic combination.

Elstead continues to provide new products into the popular Tiffany Style genre, with Alderley inspired by a classic art deco motif as well as the more colourful art glass from Quoizel.

EXTERIOR

These new ranges include a mixture of contemporary, transitional, and traditional designs. All are IP44 rated for use outdoors, but some models would be equally at home used in an interior space.

You will find another three collections made from the extremely popular Weather Resistant Composite which is suitable for projects right on the coastline with tough saline conditions. Look out for the new fun colours for the Deco Lane and Klampenborg lanterns, ideal for colourful outdoor living spaces.
