DESIGN FOR EVERYONE

# BRAND WITH SOUL

Our purpose is to contribute to the wellbeing and happiness of people through design and the relationship we establish with the objects that surround us in our daily lives. We believe in honest and accessible design.

Nuestra razón de ser es contribuir al bienestar y la felicidad de las personas a través del diseño y la relación que establecemos con los objetos que nos acompañan en nuestro día a día. Creemos en un diseño honesto, accesible y cercano.

# TURN OFF THE LIGHT

Our sustainability journey focuses on minimizing our environmental footprint and maximizing our positive impact on society.

Nuestro camino hacia la sostenibilidad se centra en reducir nuestro impacto negativo en el planeta y maximizar nuestro impacto social positivo.

# QUALITY COMMITMENT

Our commitment to quality is at the heart of everything we design. We rigorously control the quality of our products and services from conception to functionality and reliability testing.

Nuestro compromiso con la calidad está presente en todo lo que diseñamos. Controlamos rigurosamente la calidad de nuestros productos y servicios desde la concepción hasta los ensayos de funcionalidad y fiabilidad.

Quality management system based on ISO9001.

Compliance with electrical safety regulations under EN60598 and energy efficiency ERP.

Sistema de gestión de calidad basado en la ISO9001.

Cumplimiento legislativo de las normativas de seguridad bajo la EN60598 y la normativa de eficiencia energética ERP.

Visor

24V Power Supply

Conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.

Conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.

24V Power Supply

Conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.

Conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.
